

### Scheduling News in the midst of Live talk shows (top of hour news only (TOH))

- In the schedule playback menu, select the news feed and schedule 24/7 (or however many days/hours available or needed).
- In the schedule playback menu, select the show you wish to schedule.
- Select "Playback a selected portion of the show" radio button.
- Edit the show start time for each hour in Eastern time (actual clock start (usually :06 for talk shows)).
- Select show end time in Eastern time (TOH).
- Select days of week (Weekdays or Weekends link will select all available for you).
- Click Update Pending Request to schedule.
- Repeat for each hour of the show.

This will overlap the 24/7 news feed and will switch to news at the TOH each hour then to show content at the start of each hour.

## Scheduling News in the midst of Shifted Playback of talk shows (top of hour news only (TOH))

- In the schedule playback menu, select the news feed and schedule 24/7 (or however many days/hours available or needed).
- In the schedule playback menu, select the show you wish to schedule.
- Select "Playback the show Shifted at another air time" radio button.
- Edit the shifted show start time for each hour in Eastern time (actual clock start (usually :06 for talk shows)).
- Select the "Playback a portion of the show" radio button to schedule the record times. This is the LIVE feed time in Eastern time.
- Edit the show start time for each hour (actual clock start (usually :06 for talk shows) in Eastern time.
- Edit the show hour end time in Eastern time (TOH).
- Select days of week (Same Day or Next Day link will select all days for you).
- Click Update Pending Request to schedule.
- Repeat for each hour of the show.

This will overlap the 24/7 news feed and will switch to news at the TOH each hour then to show content at the start of each hour. Note: shifted playbacks will override live audio so both the record and playback times must reflect the gap needed for the live news feed.
